

## BacPac Printer XL

Rucksack for notebooks, printers or cameras and other mobile devices.

**With the robust BacPac Printer XL rucksack you can now transport your mobile office with even more comfort. Simply pack up your 17.3" notebook and HP or Canon printer and off you go. Thanks to the good padding of the notebook and printer pocket (printer pocket dimensions: 400 x 370 x 55 mm) the mobile devices are optimally protected. Also, both pockets are lockable. Thanks to the included flexible partitions the printer pocket can also be used for the transportation of cameras, mobile devices and further accessories. A rubberised support strap ensures additional security when transporting your notebook. Printers are optimally secured with the optionally available DICOTA ABS printer inlays for the HP DJ 460, HP Officejet H470, Canon iP90 and iP100 mobile printers (other printers available upon request).**

Notebook and printer wiring runs in the bag interior thanks to openings in the partitions of the rucksack. Mobile phones, business cards and pens are stored in the front pocket where they can be easily reached. Documents have plenty of room in a two-part DIN A4 paper pocket. Thanks to its optimum size and breakdown the BacPac Printer XL fulfils all the requirements of a notebook case but is also very comfortable to carry on your back. The padded, adjustable shoulder straps and the breathable back-padding offer further wear comfort. It is the ideal companion for working on site with customers! \*All the devices pictured (such as notebook, printer etc.) are not included!

Screen size: 14 - 16.4 inches:

Art.No: N25588N

Weight: 2.5kg /5lbs8.2 ounces
