

## DataCollect

Spacious case with trolley system for notebooks, printers and DIN A4 folders.

The particularly spacious DataCollect optimum protection and space for your mobile computing equipment. The robust housing and the extra padded notebook pocket protects your mobile computing equipment whilst you are on your travels. Also, the padded extra pocket provides enough space to store the following mobile printer types for transportation: HP DJ 450, HP DJ 460, HP Officejet H 470, HP OJ 100, Canon iP90/iP100 with or without support of the Canon Portable Kit. Along with the notebook and printer pocket, the DataCollect also has an extra large pocket for folders or other documents.

Up to two fully-laden DIN A4 folders can be comfortably stored alongside one another. All three pockets are connected to one another with Velcro and attached to the case inner wall. Thus allowing their sizes to be adjusted according to requirement. In the fitted document pocket on the front side of the case documents can easily be stored in concertina files. Two outer pockets on each side offer further storage space for mobile accessories (mobile phones, pens, CDs, detachable key rings etc.). In addition, business cards and pens can be stored on the inside of the case lid. The integrated trolley system ensures an especially comfortable transportation of your mobile office. \*All the devices pictured (such as notebook, printer etc.) are not included!
