

DICOTA

DIE
COMPUTER
TASCHE

DICOTA was born in 1992 from a simple idea: Transporting computers from A to B – safely, conveniently, and efficiently.

Our journey started when computers became mobile in the early 90s. For over three decades, DICOTA has been synonymous with continuous innovation and premium quality.

German pioneer in smart and sustainable professional carrying solutions – from computer bags to IT accessories.

Today, we're passionate about making your mobile and hybrid work life more convenient and secure.

Rooted in German heritage, DICOTA's legacy of quality and innovation continues to thrive. Since the 2013 management buyout, Swiss values have enriched DICOTA's approach with a strong focus on ecological and social sustainability. We foster meaningful partnerships with customers, suppliers, and employees alike.

All united. Pioneering tomorrow's success.

RESPONSIBLE. SOCIALLY AND ECOLOGICALLY.

At DICOTA, we are committed to sustainability. For us, it is not only about producing durable and environmentally friendly products, but also about supporting people and protecting resources. This is why we focus on integrating sustainability into everyday life, both in small and big ways.

Supply Chain Management

As a proud amfori BSCI member, DICOTA is committed to fair and safe working conditions worldwide — ensuring health, equality, and ethical practices across our supply chain through strong partnerships and clear standards.

Sustainable Materials

DICOTA uses 100% recycled PET as main material for its ECO line — turning bottles into durable, stylish, and functional bags and backpacks. This cuts CO₂ by 50% vs. virgin polyester. Over 95% of our range is recycled, saving 12M+ bottles from landfills and oceans.

Careful Use of Resources

DICOTA uses recycled materials, reduces waste, and designs for efficiency. We comply with REACH, avoid harmful substances like PVC, and ensure quality through lab tests and audits. We support recycling via BellandVision and use FSC paper for print materials.

Lasting Quality

DICOTA ensures high quality with strict checks from production to sale. Products are tested by our team and independent labs to meet top standards, endure daily use, comply with regulations, and stay free from harmful substances.

BAS

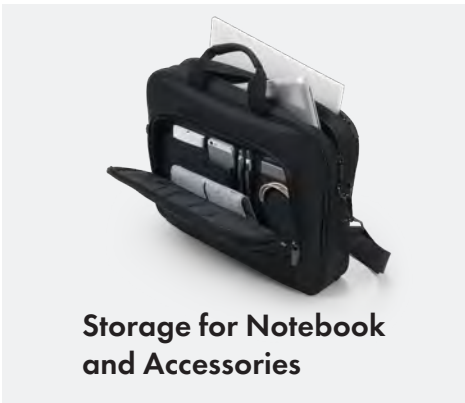

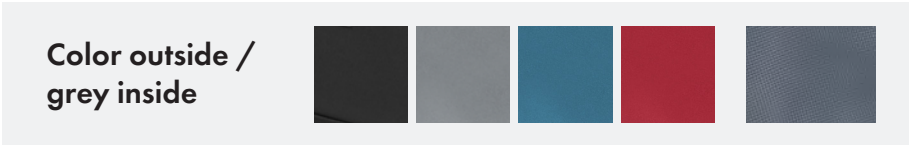

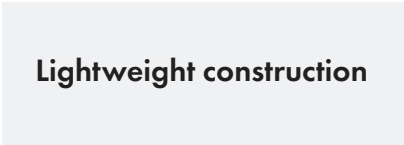

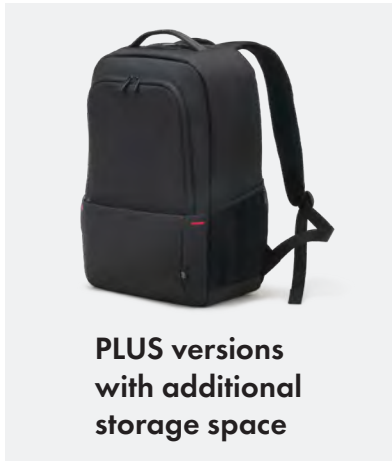

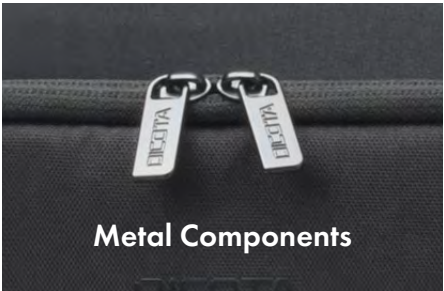

The BASE collection offers more than its name suggests – it stands for proven quality, practical functionality, and reliable protection at an excellent price. Popular with students and professionals alike, BASE has become a go-to choice for millions worldwide. Well-padded compartments safeguard notebooks and devices, while smart layouts and lightweight materials ensure everyday comfort and ease of use. A trolley strap and durable construction make BASE a dependable companion for work, school, or travel. BASE has long embraced sustainability, using recycled PET to give up to 12 plastic bottles a new purpose. It's a smart choice for anyone seeking affordable, long-lasting, and eco-conscious carrying solutions.

KEY FEATURES

- All relevant construction types (Backpack, Clamshell, Toploader, Slim Case, Sleeve) and dimensions (between 11" and 17.3")
- Lifetime Warranty
- High quality metal components for shoulder strap connections, D-rings, zippers, ...
- All products with a variety of compartments and options to store notebooks, documents and accessories
- 300D recycled Polyester used as main materials for all products
- Up to 12 RPET bottles per SKU used

COOR

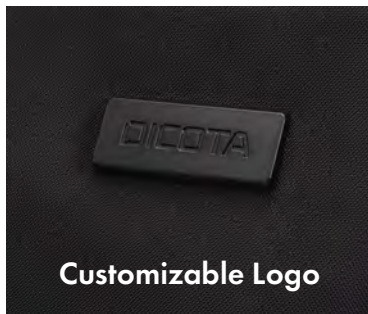

The CORE collection is built for modern professionals who demand a perfect balance of sustainability, functionality, and style. Designed with the eco-conscious business traveller in mind, these sleek notebook bags and backpacks offer a refined look and an environmentally friendly choice without sacrificing durability or aesthetics. Comfort is at the heart of CORE. Ergonomic shoulder straps and padded backs ensure effortless carrying, while smart compartments keep laptops, documents, and essentials secure and accessible. CORE is more than just a bag – it's a statement. It reflects a commitment to the environment while delivering functionality, premium quality, and long-lasting performance for those who seek the best in both their professional and personal lives.

KEY FEATURES

- Aimed at the professional user, originally positioned between CORE and SELECT
- One of the first families to use recycled outer materials
- Extra notebook protection by high-density foam
- Selected models and sizes also in red, blue or grey outer material
- Lockable notebook compartment
- Easy individualization
- Up to 14 PET bottles used

SCA

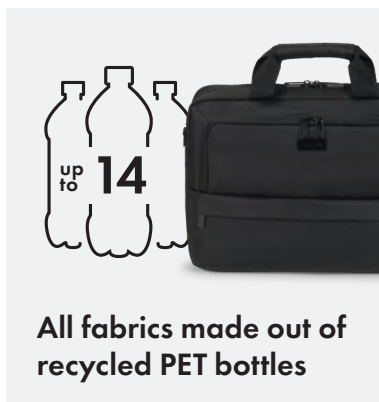

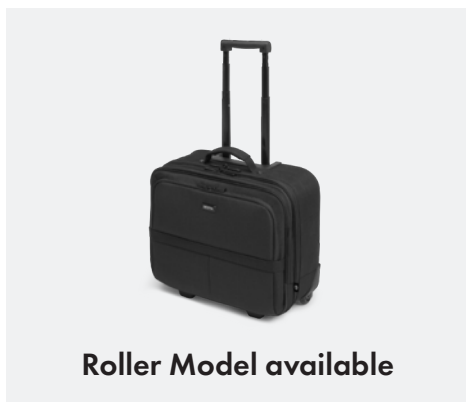

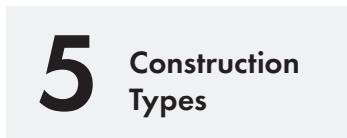

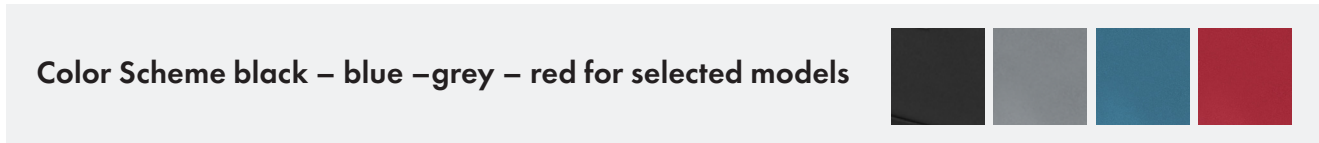

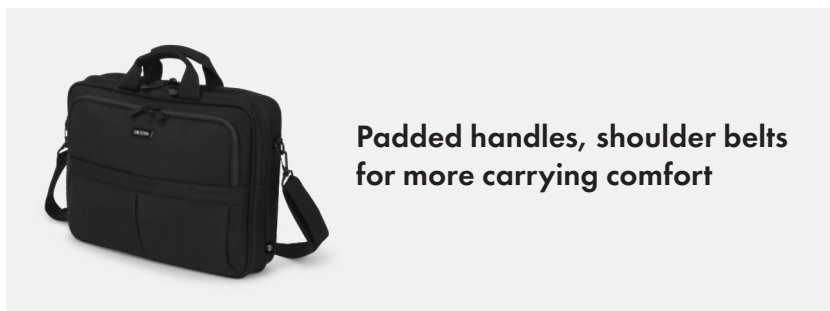

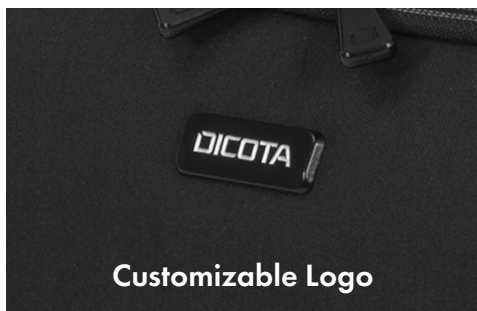

The SCALE series is tailored for discerning professionals and business travellers who value functionality, durability, and sustainability. With a sleek and modern aesthetic, it's the perfect companion for commuting, meetings, or international travel – combining smart design with everyday practicality. Thoughtfully engineered, each bag offers generous storage, padded compartments for laptops and tablets, water-repellent materials, a trolley strap for travel ease, and ergonomic comfort. Multiple compartments help organize documents and accessories efficiently. Made from recycled PET bottles, SCALE stands for sustainable design without compromise. Durable materials and high-quality construction ensure long-lasting performance.

KEY FEATURES

- Aimed at the professional user, originally positioned between CORE and SELECT
- One of the first families to use recycled outer materials
- Selected models and sizes also in red, blue or grey outer material
- Extra notebook protection by high-density foam
- Lockable notebook compartment
- Also one of the first families that can be used for easy individualization
- Up to 14 PET bottles used

FIV

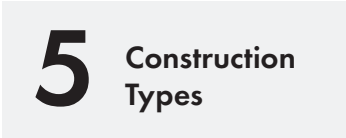

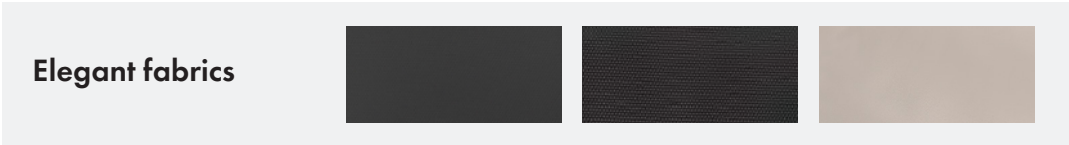

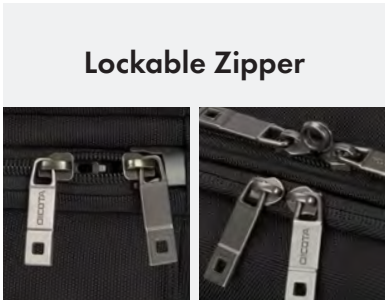

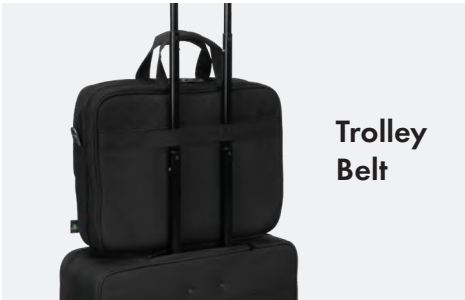

The FIVE is the natural evolution of DICOTA's business line, aiming at ambitious professional consumers who need more than just a bag – it's a mobile office. FIVE combines reliable performance with enhanced security, smart organisation, and practical comfort for everyday business mobility. Key features include a self-closing zipper on the notebook compartment for theft protection, DCT padding for shock absorption, and integrated RFID shielding for cards and passports. A structured front compartment, trolley strap, shoulder strap holder, and tracking device slot offer added functionality, while the black and beige interior improves visibility and organisation. FIVE is made from durable, recycled materials – now used both inside and out – underscoring DICOTA's commitment to sustainable product development. FIVE is more than just a bag – it's professional organisation in motion. Designed for those who expect protection, structure, and long-lasting performance in every detail.

KEY FEATURES

- Durable, recycled materials – now also used in the interior
- Front compartment with quick access and protection against pressure marks
- Tracking slot allows the bag to be located if lost or stolen
- Extra compartments for accessories, documents, or a second device
- Notebook compartment with self-closing zipper for added theft protection
- Black-beige interior improves visibility and organisation
- Ergonomic handles, shoulder straps, and trolley strap as standard
- Shoulder strap holder can be secured with a notebook lock; RFID compartment protects cards and passports
- High-density foam or DCT Technology for high-level shock absorption
- New metal logo enables easy customization
- Lifetime warranty included

PRO

The products in the PRO collection are known as DICOTA Top-Class, means, the best that can be offered, based on 30 years of experience in designing and manufacturing premium carrying solutions. PRO products are reliable, made from high-quality materials and provide best all-round protection and functionality. Developed for people who particularly appreciate the best quality and clever details in everyday life.

KEY FEATURES

- Aimed at the professional corporate and business user
- Lockable compartments for extra safety
- Numerous additional pockets for accessories, documents and chargers
- Anti-Slip Technology to avoid the notebook accidentally slipping out of its compartment
- Memory Foam for better protection against scratches and bumps
- Up to 41 PET bottles used
- Fair and sustainable production
- Lifetime Warranty

EN

SEVEN – the latest flagship from DICOTA. We have listened carefully to our customers, especially those who already use our PRO series. We've kept the good and added the better. High level of protection that keeps your work and belongings safe, efficient organisation. Almost all woven materials are now made from recycled materials and we have even reduced the weight of the cases to support the needs of mobile travellers. Designed with and for mobile professionals.

KEY FEATURES

- Durable, recycled materials – also in the interior – for highest sustainability!
- The front compartments allow quick access to the power supply and cables, protects the notebook from pressure marks and display damage
- Other compartments offer space for accessories, documents or an additional notebook/tablet
- Ergonomic handles, shoulder straps and a trolley attachment are standard features
- Highly protective features such as DCT, HDF foam and specific corner protection
- Resistant material, made from up to 72 bottles per single SKU
- Innovative safety features (tracker pocket, RFID blocker, self-locking and lockable zippers and D-ring with notebook lock slot)
- Hand-picked construction types to specifically address the professional user
- Lifetime Warranty
- New metal logo allows easy customization by using doming stickers or replacing the logo

THE NEW BACKPACK LINE-UP

Versatility for every Lifestyle!

The new range of backpacks offers something for every need and lifestyle. The lightweight and simple COMMUTER is ideal for the daily commute to work or for leisure activities. Choose from colourful designs, high visibility and robust construction. The COMPANION is ready for any adventure with excellent ergonomics and practical features. The SEEKER II offers plenty of storage space and great organization for long journeys, while the SPIN II combines quality and sustainability at an unbeatable price. Whether for work, study or leisure, discover the backpack that perfectly suits your lifestyle.

Backpack COMMUTER 13–16

Lightweight comfort and colourful style for your everyday use.

KEY FEATURES

- Spacious main compartment for 13–16" notebooks, documents or personal items
- Front pocket with workstation
- Zippers with loop for easy access
- Right-side pocket perfect for water bottle or small items
- Comfortable back padding
- Padded shoulder straps
- Made fairly and sustainably from 7 recycled PET bottles

Backpack COMMUTER Rolltop 13–16

SPIN II

Spacious organization talent – for your commute or longer journey.

KEY FEATURES

- Large main compartment with padded pocket for notebook and extra space for documents
- Front pocket with workstation
- Small pocket with vertical zip for small items
- Soft mesh pocket on the right side for water bottle
- Padded back and shoulder strap with webbing loop and decorative stitching
- Metal logo on the front for customization options
- Made fairly and sustainably from 9 recycled PET bottles

Backpack COMPANION 13–16

Smart features, classic style – your first choice for every adventure.

KEY FEATURES

- Two slip-in pockets for 13–16" notebooks and documents
- Front pocket with workstation and RFID pocket with zipper
- Elastic mesh zip pocket for equipment
- Breast and optional hip belt
- Hidden pocket doubles as trolley belt
- Right side pocket perfect for a water bottle or small items
- Ergonomic back padding and padded shoulder straps
- Rain cover with reflective DICOTA logo in silver-grey
- Metal logo on the front for individualization
- Made fairly and sustainably from 11 recycled PET bottles

SEEKER II

The perfect backpack for long journeys and all your essentials.

KEY FEATURES

- Notebook compartment for 13–16" devices with fitall-system and lockable YKK security zipper, plus a tablet pocket in front
- Two slip-in pockets for documents or personal items
- Front pocket with workstation
- Hidden pocket doubles as trolley belt
- Left side pocket with loop, elasticated pocket on the right
- Padded shoulder strap with chest belt and elastic smartphone pocket
- Metal logo on the front for individualization
- Made fairly and sustainably from 20 recycled PET bottles

SLEEVES

Notebook sleeves are a handy addition to a standard bag. Not only do they provide an extra layer of protection against scratches, dents, and minor impacts when inside the bag or when moving from one place to the other, they also make it easier to carry your laptop around. Their low weight make them convenient for quick trips or when you don't want to carry a larger bag. DICOTA sleeves come in various designs, colors, and sizes, allowing the user to choose one that matches not only their device but also their style.

PERFECT SKIN

Protects your notebook perfectly from scratches and small damages.

KEY FEATURES

- Robust, especially elastic neoprene
- Adapts perfectly like a second skin to the notebook
- Optimal protection from scratches and small damages
- Zipper equipped with additional padding to protect from scratches
- Lightweight design
- Water-repellent material for travel in all weathers

SKIN URBAN

Custom-fit protection for your MacBook made from robust neoprene.

KEY FEATURES

- Elasticated fit, specially developed for MacBooks
- Practical loop for easy removal from a backpack or bag
- Soft inner lining made of faux fur for additional protection
- Water-repellent outer material
- Fairly and sustainably produced from recycled PET bottles
- Also suitable for notebooks from other brands

SMART SKIN

Smart Skin provides practical and lightweight protection for your notebook. Made of robust and particularly flexible neoprene it fits snugly around your notebook like a second skin. The lining made from Nylex, a soft polyester fabric, keeps your notebooks safe from scratches.

KEY FEATURES

- Robust, especially elastic neoprene
- Adapts perfectly like a second skin to the notebook
- Soft Nylex lining
- Zip pocket on the front with room for accessories
- Padded handles
- Water-repellent material for comfortable travel in all weathers

ACCESSORIES

Mobile computers are more and more what they are expected to be: mobile! Having this in mind, DICOTA carries an accessory portfolio that clearly addresses the mobile user by providing all the necessary tools and products needed on the go. Whether it is adapters and hubs to enhance the limited connectivity of today's notebooks, chargers to power every mobile device from smartphone to laptop or wireless mice for better control compared to the built-in touchpads. Our webcams allow the visual interaction in meetings and calls and wireless pointers make every sales pitch easy and flawless.

DICOTA accessories – what we don't have, you don't need!

CHARGING CABINETS

- Safely charge multiple devices at the same time
- For tablets and/or laptops
- Applicable in a wide variety of work and school environments
- Fully customizable options possible

PRIVACY IN EVERY ASPECT

Keep Your Data Safe – Wherever You Work

Protect your screen. Preserve your privacy.

The protection of your private and business data from unwanted eyes is more important than ever. Whether you're in the office, at a café, or on the move, unprotected screens leave sensitive information exposed. DICOTA's premium privacy filters not only help prevent data theft but also ensure compliance with EU regulations like the GDPR.

Designed for Clarity & Security

When viewed straight on, DICOTA privacy filters deliver a crisp, clear image. But from a side angle of 30° or more, screens appear completely black – making visual hacking nearly impossible.

A Solution for All Devices

With over 800 models available, DICOTA offers screen filters for smartphones, tablets, notebooks, and monitors. Choose between three mounting methods and four protection technologies tailored to your needs.

Why Are Screen Filters Essential?

Visual hacking is one of the most underestimated security threats. Screens without privacy protection expose confidential business data, financial records, and trade secrets to unauthorized viewing in offices, co-working spaces, and public environments. The consequences?

- Security Risks & Compliance Violations – Unprotected screens lead to data breaches, GDPR violations, and competitive disadvantages. Supports GDPR and industry security requirements
- Loss of Productivity – Side-angle visibility and glare increase distractions, reducing focus and efficiency
- Screen & Eye Protection – Anti-glare and blue light filtering (up to 45%) reduce strain, ensuring long-term comfort and device longevity
- Screen protection & cost savings – Shields screens from scratches, smudges, and dust – ideal for company devices

DICOTA introduces NEW magnetic privacy filters – now available for larger desktop monitors, making privacy protection more versatile and widely accessible than ever before. This latest addition to our portfolio is designed for professionals who need seamless, high-quality screen protection across all devices. The new magnetic filters offer instant attachment, enhanced security, and superior clarity, all while ensuring effortless usability. Precision laser-cut in Germany, these filters provide short lead times and optimized logistics, delivering a hassle-free experience across laptops, tablets, and desktops.

The New Magnetic Filters, Redefined

- More Compatibility, More Flexibility – Now supporting even larger desktop screens, with custom sizes and tailor-fit solutions for specific needs
- Instant, Secure Attachment – For devices with built-in magnets, filters snap on instantly, no clips or adhesives needed
- Universal Fit – For non-magnetic devices, self-adhesive magnetic strips allow seamless attachment while avoiding standby/sleep-mode issues
- Reusable & Flexible – Remove and re-attach in seconds, anytime

Why Choose DICOTA Privacy Filters?

- Instant, Secure Attachment – No damage, no hassle
- Reusable & Flexible – Easy to attach and remove
- Advanced Protection – Blocks side views, reduces glare, and filters blue light
- Made in Germany – Precision laser-cut for premium quality and fast availability
- Largest Selection on the Market – Over 800 privacy filters, including tailor-made solutions for various brands and devices

With this portfolio expansion, DICOTA makes privacy protection more accessible, reliable, and user-friendly than ever before. Explore the new range today and enhance your screen security

CABLE LOCK

Easy, convenient and effective. Ideal in the office, car or hotel.

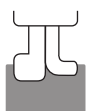

Find the right protection for any device: T-Lock, Nano-Lock, and Wedge-Lock.

DICOTA has specialized in innovative solutions for mobile devices and has been offering high-quality locks for notebooks and other equipment for more than 20 years.

Using a notebook lock is a practical way to enhance the security of the device, especially in environments where theft is a concern. It physically secures the laptop to a stationary object, making it difficult for thieves to quickly grab and run. This visual deterrent itself can discourage opportunistic theft. Knowing the laptop is securely locked can give peace of mind, allowing to focus on the work or activities without constantly worrying about the device being stolen – and with this protect from losing valuable personal or business data! When frequently working in public places like libraries, coffee shops, or shared workspaces, a notebook lock can be particularly useful in ensuring the device remains safe when stepping away.

There are three main lock slot types that are most commonly used: the T-Lock, the Nano Lock and the Wedge Lock. Their only difference is the size of the opening which also allows to not only offer specialized locks for the specific slot but also universal locks that can be used for any of the three types.

T-LOCK

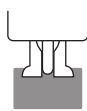

7 × 3 mm

WEDGE

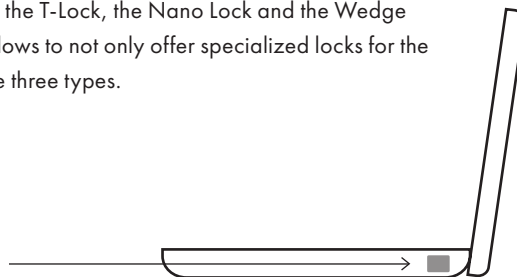

4.5 × 3.2 mm

NANO

6 × 2.5 mm

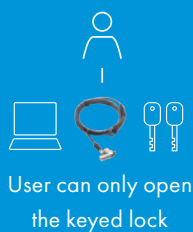

DICOTA does it all: the specialized lock for a single slot type but also the universal solution for flexible and multi-purpose use.

For Single or Multi User

DICOTA locks are available as a single user version for business travellers, or single workplaces but also in a multi-user version – this is perfect for IT administrators who need access to all devices in their company but also want to allow the single user to take their device home for work.

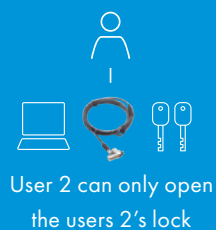

SINGLE USER

MULTI USER

Master Keys can open all locks in the system

DICOTA locks come in different variations – not only looking at the single or multi-user version, but also with keys or combination lock versions.

Some offer an extra small lock head to also fit flat and slim laptop devices, or universal solutions that offer a lock that fits into all three relevant slot types.

Visit the dicota.com website for more information about the available products, detailed features and price information – or contact your personal DICOTA sales for a demonstration and introduction!

SAFETY AT WORK

HI-VIS

SAFETY FIRST. IN EVERY DETAIL

Maximum safety on the move, at work.

The Hi-Vis backpacks and bags offer a reliable solution for the demanding outdoor workday and meet important criteria such as ergonomics, durability, and sustainability. Workplace safety is of the highest priority, and with the right equipment, accidents can be prevented. The materials of DICOTA's Hi-Vis products comply with the EN ISO 20471:2013 standard and guarantee excellent visibility for employees.

With a well-thought-out compartment layout for optimised workflows and high visibility of materials, the Hi-Vis products support areas such as public transport, vehicle operation, customer escort, track work, construction sites, and commuting. The water-repellent outer material according to EN ISO 4920, Level 4, as well as the included rain cover, provide additional protection in bad weather.

Our models offer optimal space, comfort, and visibility – ideal premium solutions for long-term use in outdoor areas. They are sustainable, as they are made from recycled PET bottles, and can be personalised with an individual logo or name thanks to the Velcro surface. Discover the reliable solution for your challenging outdoor workday with DICOTA's Hi-Vis products.

DCT.PRO

Customised solutions for corporate customers and their various workgroups.

dct.pro offers tailored transport solutions for companies and their specific occupational areas that provide greater safety, efficiency and comfort and that are proven to increase employee satisfaction.

dct.pro is more than just a bag: it is a joint development collaboration at eye level with the customer to achieve the best possible results, based on a deep understanding of the respective field of application. The experts are on-site and lead joint workshops with competence and conviction. International companies in the public transport, civil engineering and special construction sectors, as well as schools and education, are already relying on these services.

At the initial meeting, the parameters for the perfect solution is defined together with the client, base on requirements, budget and corporate identity. The use of sustainable materials, first-class components and high-quality manufacturing form the basis for a long product life. This results in low lifecycle costs, sustainable savings for the customer and an optimal user experience.

DCT.OEM

Market-driven collections for CE-manufacturers and private labels.

dct.oem, the expert source for individual Original Equipment Manufacturer (OEM) collections of mobile carrying solutions and accessories. For more than 30 years, the preferred choice of IT and CE brands, as well as e-tail and retail companies with their own brand strategy.

The full-service approach includes portfolio development, design concept studies, product engineering, prototyping and socially responsible manufacturing, as well as internal and external testing services. Using sustainable materials, collections are developed to meet the customer's budget and are compliant with their policies and objectives. Furthermore, dct.oem offers comprehensive global delivery and logistics services tailored to the customer's needs.

Companies entrust these challenges to dct.oem and discover the opportunities to unleash the full potential of their brand, expand their product offering into new sectors and exceed their business objectives.

A holistic approach to diversifying product offerings, and creating new and exciting revenue opportunities.

HERE FOR YOU

Are you working on a larger project or looking for an optimal solution within an estimated budget framework? The dct.oem and dct.pro specialists are happy to support you taylor-made@dicota.com.

DICOTA Club is the B2B partner program for mobile carrying solutions and IT accessories.

The DICOTA Club provides resellers with the right resources and benefits for a smooth, profitable buying and selling process. IT resellers in the Club will benefit from a high-quality rewards programme, a wide range of support in marketing and selling the products, an online quotation tool, volume conditions, direct support from the manufacturer and exclusive events.

Your advantages

In addition to the rewards programme, DICOTA has put together marketing and sales tools that are specifically tailored to the requirements of resellers. For example, this includes an online quotation tool and volume conditions that take effect from an order quantity of only ten units, meaning it can be used by smaller sellers and resellers. Furthermore, members are given free product samples that can be tested for 45 days without obligation and, if so wished, can be purchased with a 50% discount on the RRP. Employee discounts are also available, as well as customisation, which can be carried out from a minimum order quantity of 25 units.

Who is the Club for?

The Club is tailored to IT resellers. DICOTA specifically provides their partners with attractive tools to help them stay competitive in a rapidly changing market. As a Club user, you will discover new sales strategies, receive marketing support, and gain access to a wide-ranging and future-oriented assortment of computer bags and accessories.

Sustainability in focus

Sustainability is important not only in the production of bags but also in co-operation with partners. By joining the DICOTA Club, you enter into a cooperation that is based on reciprocity. Let's seize opportunities, profit and grow together!

Easy registration

Participation in the partner programme is free of charge and non-binding for specialist retailers. Registration is possible at any time at www.dicota.club/sign-up or with the QR code.
