BACKPACK ONE

The Backpack ONE is equipped with a main compartment, two side pockets and a zip pocket on the front. The main compartment contains a padded notebook compartment with fastening straps and offers a total capacity of 15 / 20 litres for documents and personal items. A water bottle and umbrella can be conveniently stowed in the two side pockets. The zip pocket on the front offers additional space for mobile accessories, business cards, pens and much more. The backpack is equipped with two comfortable shoulder straps and a handy carrying handle for comfortable carrying. A simple and high-quality product for professional and private use.

MULTI ONE

The Multi ONE is a fold-out clamshell bag with a particularly well-padded main compartment and a fastening strap that holds the notebook securely in place. A separate slip pocket offers space for documents, while the front pocket with zip is ideal for accessories, business cards and smartphones. The adjustable and detachable shoulder strap and the comfortable carrying handle ensure versatility and comfort. All in all, the Multi ONE is a bag with a simple design made from high-quality, sustainable materials that also allows for clear organisation.

MULTI ONE

- Made from 10/ 10.5 / 13 recycled PET bottles
- Padded notebook compartment
- Fastening strap ensures that the notebook does not slip
- All-round padding for extra protection
- Front pocket with workstation for mobile accessories
- Comfortable carrying handle and detachable shoulder strap
- High-quality metal components
- 5 year guarantee

SLEEVE ONE

The sleeve reliably protects your notebook from damage thanks to its custom-fit shape and can easily be stowed in another piece of luggage as it takes up very little space. The spacious main compartment has a zip fastener with a protective layer on the inside to prevent scratches. It fits snugly around the device and thus offers optimum protection. Overall, the bag impresses with its lightweight, robust and simple design.

SLEEVE ONE

- Mainly made from robust RPET material
- Made from 1.5/ 2 recycled PET bottles
- The elasticated material fits snugly around the laptop
- High-quality metal zip
- 5 year guarantee

SMART SLEEVE ONE

The Smart Sleeve adds a practical carrying handle and an additional compartment for accessories to the classic sleeve. It reliably protects your notebook from damage and offers a convenient transport option thanks to the carrying handle. The spacious main compartment has a zip with a protective layer on the inside to prevent scratches. The additional compartment offers sufficient space for accessories such as charging cables, hubs and more. Thanks to the customised shape, the sleeve fits snugly around your device and offers optimum protection.

SMART SLEEVE ONE

- Mainly made from robust RPET material
- Made from 3 recycled PET bottles
- The elasticated material fits snugly around the laptop
- High-quality metal zip
- 5 year guarantee
