

FIVE

FIVE is the cleverly designed business series for the modern world of work and the mobile office. It combines reliable performance, intelligent organisation and maximum carrying comfort. Effective protection for devices and data is guaranteed by DCT technology, the RFID compartment and discreet slot for tracking devices. The high-contrast inner lining also provides better visibility. Manufactured from durable recycled materials, FIVE stands for responsible, professional quality that is suitable for everyday use.

PRODUCT HIGHLIGHTS

- Effective impact protection thanks to DCT technology and HDF padding
- RFID compartment protects cards and passports from data theft
- Lockable notebook compartment with enhanced theft protection
- Quickly accessible front compartment reliably protects devices from dents
- Made from up to 41 recycled PET bottles
- Integrated compartment for GPS tracker (e.g. AirTag)
- Ergonomic handles, shoulder strap and trolley fastening ensure comfort
- Structured additional compartments for accessories, documents or a second device
- High-contrast lining in black/beige for better visibility
- Durable, recycled materials used both inside and out
- Interchangeable metal logo for easy customisation
