

SEVEN

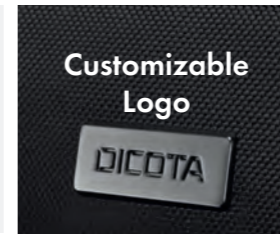

The culmination of 30 years of DICOTA experience: SEVEN combines proven engineering expertise with contemporary sustainability and functional design. Every detail is designed for maximum protection, clear organisation and uncompromising quality. Almost all of the textiles used are made from recycled materials; at the same time, the weight has been reduced and durability increased. The result is a lightweight, robust and responsibly manufactured range. Designed for professionals on the go, created to accompany you in your everyday working life reliably and stylishly.

PRODUCT HIGHLIGHTS

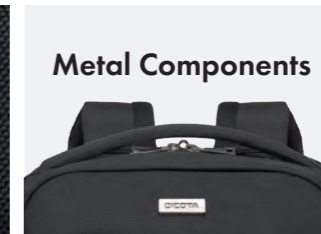

- Maximum device protection thanks to DICOTA Cushion Technology, HDF padding and comprehensive corner reinforcement
- Innovative features such as GPS tracker compartment, RFID blocker and metal carrying ring for notebook lock
- Durable recycled materials ensure maximum sustainability
- Additional compartments provide space for accessories, documents or an extra notebook/tablet.
- Front compartments allow quick access and reliably protect the notebook from dents and display damage.
- Ergonomic parts for carrying comfort such as padded handles, adjustable shoulder straps and trolley fastenings are standard features.
- Designed for professionals: functional, robust and with great attention to detail
- Made from up to 72 recycled PET bottles
