

TWO

The success story continues. The TWO series is the direct successor to the successful BASE line, proven millions of times over in use around the globe. Practical enhancements, well-thought-out details and a robust design combine economy with quality. All models are made from recycled PET and are suitable for roll-outs, everyday business use and even private users with high expectations in terms of quality. The durable construction significantly reduces the total cost of ownership (TCO) – the new benchmark for value and reliability.

PRODUCT HIGHLIGHTS

- Padded notebook compartment
- Front compartment for mobile accessories and personal items
